

CRIMEINTEL - ENHANCED INTELLIGENCE OVERVIEW

We transform crime records into actionable intelligence that answers the five critical questions for proactive policing.

THE PROBLEM: FROM RECORDS TO REACTIVE POLICING

- Fragmented Records**
Information scattered across stations and systems
- Spatial Complexity**
Hotspots and clusters difficult to identify
- Limited Visibility**
Hard to see statewide patterns and risk zones
- Historical Dependency**
Reactive decisions based only on past records
- Manual Analysis**
Slow identification of trends and anomalies

CRIMEINTEL INTELLIGENCE PIPELINE

THE KEY DIFFERENCE

CrimeIntel now connects

- WHERE** | Where is crime concentrated?
- WHEN** | When does crime change?
- WHO** | Who is repeatedly involved?
- HOW** | How are people & cases connected?
- WHAT NEXT** | Where could risk emerge?

02 / ENHANCEMENT OVERVIEW

From Analytics Platform to Intelligence Environment

EVOLUTION: WHAT WE ENHANCED

EARLIER VERSION

- Crime Data Visualization
- Static Dashboards
- Basic Charts & Maps
- Historical Insights Only
- General Users
- Limited Platform Controls

ENHANCED CRIMEINTEL

- Integrated Crime Intelligence
- Interactive Analytics & Drilldowns
- GIS + Hotspot Intelligence (DBSCAN)
- Trends + Anomalies + Forecasting
- AI/ML Risk Indicators & Predictions
- Criminal Networks & Link Analysis
- Repeat Offender Tracking
- Socio-economic Crime Correlation
- Role-based Experiences
- RBAC + Security + Auditability
- Operational, Scalable Platform

ENHANCED INTELLIGENCE MODULES

DASHBOARD & KPIs

- Real-time KPIs
- District Rankings
- Recent Intakes
- Trend Overview

GIS & HOTSPOT INTELLIGENCE

- Leaflet GIS Maps
- Heatmaps
- DBSCAN Clustering
- Beat/District Layers

DISTRICT INTELLIGENCE

- Station-level Drilldown
- Case Breakdown
- Repeat Offenders
- Risk Scores

NETWORK ANALYSIS

- FIR-Person Links
- Co-accused Graphs
- Criminal Connections
- Network Metrics

AI/ML INSIGHTS

- Time-series Forecasting (ARIMA / RF)
- Anomaly Detection
- Predictive Risk Scores
- Pattern Detection

REPORTING & COMPLIANCE

- CSV / PDF Exports
- Operational Reports
- Audit Logging
- Compliance Ready

03 / OPERATIONALIZATION

Controlled, Secure & Scalable Intelligence Platform

THREE OPERATIONAL PERSPECTIVES

SYSTEM ARCHITECTURE

SECURITY, RBAC & DATA TRUST

DATA PROVENANCE

- Source of Truth:** Karnataka State Police reference schemas & Monitoring as official statistics
- Zero Fabrication Policy:** Synthetic values not presented as official statistics
- Schema Coverage:** Full normalization of FIRs, People, Arrests, Chargesheets & Stations

CRIMEINTEL enables a shift from **REACTIVE** → **PROACTIVE** policing by connecting **DATA** → **PATTERN** → **INTELLIGENCE** → **RISK** → **ACTION**.
