

OPERATIONAL FLOW

Intelligence Lifecycle

From raw FIR data to strategic deployment, the platform streamlines the entire operational workflow securely.

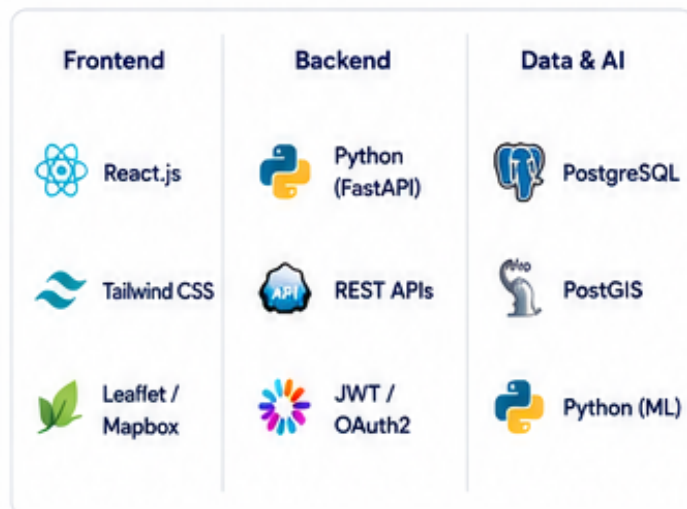

SYSTEM ARCHITECTURE

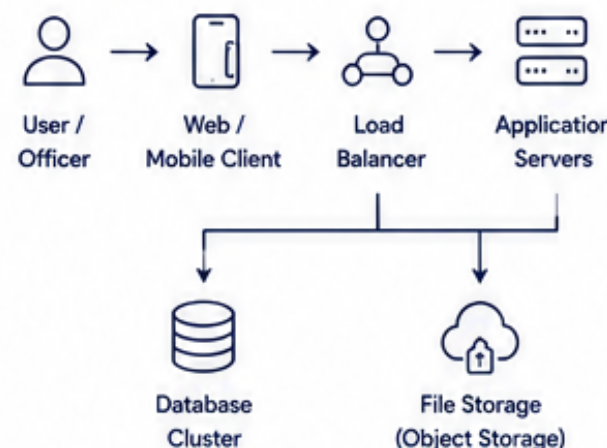

CROSS-CUTTING CONCERNS

- Security (Encryption, RBAC)
- Audit & Logging (Who, What, When)
- Data Quality & Governance
- Monitoring & Observability
- Backup & Disaster Recovery

TECHNOLOGY STACK

DEPLOYMENT ARCHITECTURE

DATA SECURITY & COMPLIANCE

- End-to-end Encryption
- Role-based Access Control
- Secure APIs & Tokens
- Compliance with IT Act & Data Protection Guidelines

KEY OUTCOME

Transforming data into actionable intelligence for proactive policing, resource optimization, and safer communities.
